EDUCATION

UNIVERSITY OF MICHIGAN — **Ann Arbor, MI**

College Of Engineering and College of Literature, Science, and the Art

BSE in Computer Science and BA in Mathematics | Business Administration Minor - May 2028

- Cumulative GPA: 3.88/4.00 | Probability Theory, Combinatorics, Distributed Systems, Financial Accounting, Real Analysis, Data Structures and Algorithms, Intro to Computer Organization
- Awards/Honors: Michigan Investment Challenge 1st Place; VCIC 3rd Place; College of Engineering Scholarship of Honor, NHS Scholarship Semifinalist, Dean's Honor List
- Campus Involvement: Michigan Consulting and Banking Club Project Manager, Violinist

EXPERIENCE

2026-Present — **BOND CONSULTING GROUP** — **Ann Arbor, MI**

Consultant

- Built a revenue forecasting model to evaluate business profitability which supported a $500,000 SBA loan applications for machinery that boosted packaging output by 500%
- Analyzed 10+ years of coffee C price data and developed a futures pricing and predictions XGBoost model and API using python, informing strategic purchasing and risk management
- Collaborated with a consulting team to synthesize financial analysis and industry research into 15+ client-facing presentations, delivering actionable insights for business planning

2025-Present — **PROJECT BLUELAB: METRO** — **Ann Arbor, MI**

Software Engineer

- Researched and simulated 5+ irrigation models (Penman–Monteith, soil moisture sensing) to improve crop hydration and efficiency for a nonprofit farm serving a local food desert
- Planned model features and irrigation system design for real-time data access and response while considering limitations of APIs, sensor integrations, Vercel workflows, and budgets
- Designed and considered 10+ pages for an interactive weather education website for Willow Run Acres to teach local students about sustainability, meteorology, and data visualization

2025-Present — **UPROUND VENTURE CAPITAL** — **Ann Arbor, MI**

Accelerator Analyst

- Helped evaluate 10+ startup growth opportunities through a student-led venture fund managing ~ $100,000, contributing to funding, advisory support, and investment decisions
- Conducted 100+ competitive and market analyses for Infilla, an urban technology company operating across 50+ jurisdictions, to identify differentiation and expansion opportunities
- Conducted quantitative SEO analysis using Ubersuggest and Google Analytics, reviewing 500+ data points across keyword clusters, domain authority, backlinks, and technical HTML issues

2025-Present — **TRADERS AT MICHIGAN** — **Ann Arbor, MI**

Quantitative Trader

- Participated in 20+ workshops on trading fundamentals, technical analysis, and market behavior to strengthen quantitative decision-making and understanding of financial markets
- Built software components for lesson materials and future Michigan trading simulation competitions, contributing technical support for trader educational programming
- Competed in 2 simulated trading competitions, applying market analysis and time-sensitive decision-making skills in fast-paced environments designed to mirror live trading conditions

2023-2024 — **LI LABORATORY** — **East Lansing, MI**

Researcher

- Discussed, edited, and rendered 15+ 3D scientific figures for student researchers to strengthen visual communication in published and unpublished academic papers and presentations
- Collaborated with 10+ graduate and undergraduate students to understand their research regarding micro-robotics, soft-tissue electrodes, biosensors, drones, and neurotechnology
- Supported laboratory operations by extracting microbial DNA, cultivating bacteria, and managing equipment used in experimental workflows and day-to-day research procedures

ADDITIONAL

- Technical Skills: C++, Python, MATLAB, Data Structures, NumPy/Pandas, HTML/CSS, LaTeX, PowerPoint/Slide Building, Financial Modeling, Presentation Design, Client Presentations
- Previous Education: MSU Dual Enrollment through Okemos High School (4.00/4.00) - Differential Eq, Multivaraible Calculus, Orgo Chem Honors I, Orgo Chem II, Gen Phy I
- Other: Helped fundraise as a dunkee in dunk tank; Sushi server for 2 years; The Tile Company (NexHacks); Earned state violin awards; Designed 20+ personalized lesson plans to teach young violinists; Established Biomedical Engineering Club; Founded Kids' Volleyball Camp
